What We Do

Our weekly musical theatre production program is filled with a mix of singing, movement, dance, games, and storytelling! Students will create stories and delve into their emotions, voice, and bodies through engaging play, character building and script rehearsal. Through a range of music activities, choreography, and drama games, they'll build confidence, develop social-emotional skills, and enhance physical literacy—all while having fun!

At the end of the term, students showcase their progress in a musical production featuring a scripted show with characters, lines, songs, and dances for families to enjoy. If your child loves to use their imagination, play pretend, dance, and sing, this program is perfect for them!

Every Student will enjoy...

- Activities in music, story, theatre, & dance.
- Two art classes tied to our show theme
- Actor's script, costume piece, and Queen's Academy shirt
- A show performed for family to watch! (show 20-25 mins)
