WHAT WE DO

Our weekly musical theatre afterschool programs offer a vibrant mix of singing, movement, dance, games, and imaginative storytelling! Students will create stories and delve into their emotions, voice, and bodies through engaging play and character building! Through a variety of music activities and drama games, they develop confidence, empathy, teamwork, and valuable life skills.

At the end of the term, students showcase their progress in a mini musical production with characters, lines, and choreography and singing for families to enjoy. If your child loves to use their imagination, dance, and sing, these performance programs are perfect for them!
