WHAT WE DO

Our Ukulele Afterschool Program is the perfect introduction to music for beginners! In this fun, interactive group class, students learn the basics of playing the ukulele, including simple chords, strumming techniques, and rhythm. Each session, they'll explore music through music activities, rhythm games, and group performances, helping them build confidence and musical skills. Children will not only enhance their creativity and teamwork, but they'll also express themselves through stories, singing with their instruments and discovering the joy of making music.

At the end of the term, students showcase their progress in a performance, where they can share their newfound skills with family and friends. If your child is curious about music and eager to try an instrument in a supportive, beginner-friendly environment, this class is perfect for them!

**Students must have their own ukulele and bring it to every class.*

Every Student will enjoy...

- **Activities in Music Skills & Theory:**
Ukulele & Music Theory, Rhythm Games, Music Exploration, Singing, Introduction to Music Notation
- **Activities in Performance & Collaboration:**

Meet Your Instructors

Miss Queen!

Queen is the Founder and Director of Queen's Academy and has been teaching musical theatre children's programs since 2013. Queen believes all kids can benefit from a performing arts experience which is why she founded Queen's Academy. Queen focuses on building children's confidence, empowering creative expression, and developing life skills through fun activities. Queen holds a Musical Theatre Diploma, is pursuing a Bachelor of Arts from Capilano University and soon a Teaching Degree from SFU. When she's not teaching, she can be found on hikes with her dog, eating chocolate, and playing board games!
